

INSTRUCTIONS FOR MEETING THE ARTICLE XI REPORTING REQUIREMENT

November 23, 1993

HISTORY OF REVISIONS

November 23, 1993 – Initially adopted

November 19, 2013 – Pulled out of the Depletions Procedure to become a stand-alone policy

BEAR RIVER COMMISSION

INSTRUCTIONS FOR MEETING THE ARTICLE XI REPORTING REQUIREMENT

November 23, 1993

Article XI states that, "The official of each State in charge of water administration shall, at intervals and in the format established by the Commission, report on the status of use of the respective allocations." The Commission has determined that the Commission's Biennial Report shall serve as the mechanism for fulfilling this reporting requirement. Each state will, in cooperation with the Engineer-Manager, compile an annual narrative report of significant water-related activities for each of the past two water years. From the state reports, the Engineer-Manager will determine which issues are of interest to the Commission and will include them in the Biennial Report. This report may not necessarily include the numeric amounts of new depletions during the biennium, but will highlight the major water-related activities in the Basin. The Biennial Report will also include a table showing the latest depletion estimates for each state by Compact division.
